TRAININGS

C++ with Data Structures
Coding Ninjas

12/2018 - 05/2019

Description
- This was a learning phase for me, where my training was based on c++. In this training, I learnt lots of concepts of c++ like data structure , foundation etc. This training helped me in developing some new skills in coding language.

Java and Automation
Pepcoding

04/2020 - 07/2020

Description
- In this time period, I learnt many new things like automation using selenium as well as puppeteer, javascript etc. and I also worked a lot on my coding skills with a new coding language, java. I learnt many concepts like arrays , dynamic programming , Trees , Linked List etc. It is a great experience to me and develop new skills.
